Edit/Writing Test

My workplace is one which states somewhere that we can only use black and blue ink on any official document. This translates to using blue or black ink only, as everything I fill out becomes part of the official file and the only thing that can be tossed are occasional notes to myself and scratch paper. Honestly as much as I'd like to whip out a pen loaded with Diamine Chocolat to take notes while I'm on the phone it doesn't make a whole lot of sense to cart around a fountain pen loaded with ink just for scrap notes, not to mention that the Diamine Chocolate would feather and bleed on all the paper in the building, so I'd then have to bring in a notepad just for that pen. It just doesn't make sense.
